

DOWNTOWN DESIGN WORKSHOP

FAÇADE DESIGN WORKSHOP

BROKEN ARROW CITY LIBRARY
300 W.BROADWAY STREET

FRIDAY, MARCH 31, 2006
8:30 a.m. – 12:30 p.m.

This workshop is the first in a series of similar workshops in the Downtown area, as part of the Downtown revitalization process and in accordance with the Downtown Master Plan.

All land and business owners that have property along Main Street and Broadway, stakeholders in the downtown community, and tenant merchants are invited to attend.

This workshop will address Downtown Building Facades along the Main Street corridor. The goal of this workshop is to develop guidelines for use of materials, signage, awnings, storefront glass, context, and scale. It is hoped that this workshop will assist owners with future improvements to existing or new properties and to keep stakeholders up to date with what is occurring in the Downtown area.

This will be an informal workshop. Even if you can only attend for a portion of the time, your input will be valuable to the Façade Design Guidelines. If you have any questions about the workshop, please contact Debra Limon, City of Broken Arrow, Development Services, at (918) 259-2400, ext. 5410.

City of Broken Arrow staff, Downtown Advisory Board members and the Downtown Advisory Board Project Manager will be on-hand to discuss facades as outlined in the Master Plan.
